

Instructions

Pick the best sentiment based on the following criterion.

Strongly positive	Select this if the item embodies emotion that was extremely happy or excited toward the topic. For example: <ul style="list-style-type: none">• I don't even know how I lived life without this app.• I absolutely love it• by far is the best storage application out there• Awwwwwesome!!!!!!!!!!!!
Positive	Select this if the item embodies emotion that was generally happy or satisfied, but the emotion wasn't extreme. For example:

The following phrases are extracted from reviews of users on software products such as: Dropbox, Evernote, Trip Advisor etc.

Important tips:

- Judge the sentiment expressed in these phrases while considering both, **user experience and the language** used.
- Keep in mind that phrases that refer to bugs or other problems encountered while using the software should be scored with a negative sentiment, for example: "it crashed on every attempt". Even though the language used might not directly express any sentiment, it negatively influences the user experience.
- Consider carefully the tense of the verb(if any) when judging the sentiment of the phrase. For example verbs in the past tense are less significant in one sentence than a verb in the present tense.

Phrase: "Ubuntu is one of the best and easiest to use Linux distros ."
